Application No.09/781,324

ORDER RETURNING UNDOCKETED APPEAL TO EXAMINER

This application was received at the Board of Patent Appeals and Interferences on September 15, 2005. A review of the application has revealed that the application is not ready for docketing as an appeal. Accordingly, the application is herewith being returned to the examiner. The matters requiring attention prior to docketing are identified below.

Upon review of the Examiner's Answer mailed on June 30, 2005, it appears that no appeal conference has been conducted. According to the Manual of Patent Examining Procedure (MPEP) § 1208 (8<sup>th</sup> ed., August 2001), when an appeal conference has been held, the appeal conference participants, including the examiner charged with the preparation of the Examiner's Answer, must identify themselves as the conferees, along with placing their initials next to their name.

This procedure has not been completely followed, thus raising the question of whether or not an appeal conference was held.

Furthermore, in accordance with MPEP § 707.08:

After the action is typed, the examiner who prepared the action reviews it for correctness. The surname or initials of the examiner who prepared the action and the date on which the action was typed should appear below the action. If this examiner does not have the authority to sign the action, he or she should initial above the typed name or initials, and forward the action to the authorized signatory examiner for signing.

Accordingly, it is

**ORDERED** that the application is returned to the Examiner for taking corrective action regarding the appeal conference, and for such further action as may be appropriate.

It is important that the Board of Patent Appeals and Interferences be informed promptly of any action affecting the appeal (i.e., abandonment, issue, reopening prosecution).
